EDUCATION & CERTIFICATES

Islington College, London Metropolitan University — BSc (Hons) Computing	2018 – 2021
• Degree Classification: Second Upper Class Honours	
International English Language Testing System (IELTS)	May 2026
• Overall Band Score: 7.0/9.0	

PROFESSIONAL EXPERIENCE

Rever Hub Pvt Ltd Kathmandu, Nepal
Mid-Level Software Engineer (July 2026 – Present) Junior Software Engineer (July 2022 – July 2026)
• Developed scalable web applications using React.js, Redux, Next.js, TypeScript, and Tailwind CSS. • Built and designed RESTful backend microservices with Node.js, Nest.js, Express.js, MySQL, MongoDB, AWS (Ec2, S3, RDS, Lambda) • Used Redis for caching and WebSockets (Socket.IO) to deliver real-time data/messaging. • Containerized app environments using Docker and automated deployment pipelines using GitHub Actions and CI/CD. • Effectively worked with product managers, designers, and cross-functional engineers in fast-paced Scrum sprints, converting broad product requirements into detailed technical specifications and delivering features on time. • Integrated and secured third-party payment gateways using custom webhooks. • Worked on JWT/OAuth authentication and role-based access control (RBAC) on backend endpoints to ensure the security architecture of the system. • Contributed to a RAG system with Qdrant, OpenAI models, and agent-based workflows. • Created and deployed machine learning algorithms in Python, such as regression and classification models that analyze historical datasets and offer predictive trend analysis and forecasting for business operations. • Built multi-step AI agent workflows and tool-calling pipelines to enable content generation automation with robust AI safety guardrails like input/output validation, content filtering, and rate limiting.
Software Engineer Internship (April 18, 2022 – July 25, 2022)
• Contributed to our development projects by building and enhancing user interface components using React.js and Tailwind CSS, while efficiently debugging and resolving front-end and back-end issues. • Assisted in consuming and testing RESTful APIs built with Node.js and Express.js to ensure smooth data flow between the client and database.

SKILLS

Languages: JavaScript, TypeScript, Python, Java, C#, HTML, CSS, XML, SQL
Frameworks & Libraries: React.js, Next.js, Redux, Node.js, Nest.js, Express.js, Tailwind CSS, Pandas, NumPy
Databases: MySQL, MongoDB, Redis, Qdrant, PostgreSQL, Oracle SQL, Microsoft SQL Server
Tools & Technologies: RESTful APIs, WebSockets (Socket.IO), Webhooks, JWT, OAuth, Role-Based Access Control (RBAC), AWS (EC2, S3, Lambda, SQS), Docker, Git, GitHub Actions, CI/CD
AI & Machine Learning: OpenAI and Anthropic APIs, RAG Pipelines, Multi-Step AI Agents, Python ML
Soft Skills: Problem-solving, adaptability, teamwork, communication, critical thinking, leadership

PERSONAL PROJECTS & REPORTS

Hospital Management System (React Native, Node.js, MYSQL, Laravel)	2021
• Built a mobile application useful for patients and doctors and a web application for the admin panel to help with the management of the hospital. (Final year project with 450+ pages report available)	
Movie Recommendation AI (Python, NumPy, Pandas)	2021
• The recommendation system is coded using Collaborative Filtering and K-Nearest Neighbors in Jupyter Notebook	
Good Food Restaurant (Oracle, ASP.Net)	2021
Stock Management System (MSSQL, ASP.Net)	2020
Medicine Management System (Java)	2020
Car E-commerce Website Design (XML, CSS)	2019
Hospital Database System (SQL)	2019
Dental Clinic Database and UI Design (Java)	2019
Developer Assignment System (Java)	2018
Library Management System (Python)	2018
